YOUR SUPPORT HELPS MAKE IPVC 2021 A GLOBAL EFFORT!

Convening at IPVC 2021 will enable sector professionals from all over the world to harness the power of innovation from HPV research to deliver on global prevention and control of HPV-related disease. Bringing together scientists, clinical researchers, public policy specialists and other health professionals to share knowledge and collaborate on HPV topics in a multi-disciplinary context serves to accelerate the advancement toward global elimination of HPV and HPV-related cancer. It can save lives.

However, to ensure participation from low and lower-middle income countries, we need your help!

You will have the option to make a donation during the [registration](#) process.

YOUR CONTRIBUTION will enable us to provide IPVC Grants to Sponsor Participants from Low & Lower-middle income countries.

By supporting the initiative, you will contribute to the goal of “Research and Education for HPV Elimination”. Thank you![GO TO REGISTRATION](#) *Donors will be acknowledged on the IPVC Friends webpage unless they express their wish to remain anonymous during the donation process.*
