Support from pharmaceutical partners helps make this event possible. As such, it is important that we comply with the various codes and directives relating to the manufacturing, distribution, and marketing of pharmaceutical products. The Human Medicine Regulations 2012, (clauses 294-300) and the European Union directive (2001/83/EC, article 86) provides guidelines relating to medicinal products for human use. Within these guidelines is the restriction that access to pharmaceutical product marketing activities must be limited to only those participants licensed/authorised to prescribe or supply medicinal products.

All participants, with the exception of the exhibitors, are asked the following question during registration: Are you licensed/authorised to prescribe or supply prescription only medicines?

Within the virtual event platform healthcare professional authorised to prescribe prescription medicines will be recognized with a letter P (Prescriber) indicated after their names.

Within the virtual event platform, all exhibitors (booth admins) will be recognized with a letter E (Exhibitor) indicated after their names. We encourage foreign participants to apply for their visas as early as possible, we are recommending to do so at least three to four months before the Conference. Some consulates may have backlogs in scheduling visa interviews. Therefore, applicants should first consult the U.S. Department of State's [visa appointment and processing wait times website](#).

Further information on business visas can be found at the [U.S. Department of State Business Visa Center website](#) and the [IV0 website](#) – the National Academies International Visitors Office (IV0). The International Visitors Office assists international students, scholars, and other travelers who are coming to the United States for scientific purposes. The IV0 additionally provides resources to the broader scientific community on visa interview preparation, travel to the United States, and international conference organizing.

If you are experiencing significant visa delays, please [fill out our visa survey](#). This will allow us to bring your case to the attention of the U.S. Department of State. An official personalized letter of invitation will be provided to registered participants as part of the registration procedure. This invitation is prepared solely for the purpose of visa applications and is not a commitment on the part of the organizers to provide any financial support or confirmation of inclusion in the Scientific Program. Invitation letters can be

provided electronically (PDF) or as a hard copy if required. Hard copies will be mailed via regular post free of charge. In case of special delivery (courier) request, the participant will be responsible for all charges. Participants are advised to wear business casual for all Congress functions and programs. All event activities (including educational sessions, meal functions, exhibit hall, etc.) are exclusively reserved for registered attendees. Non-registered guests (including children, family members, colleagues, etc.) are not allowed in any of the event areas. Badges provided at registration are required for entrance into all functions and will be strictly enforced. Please do not leave bags or suitcases unattended at any time, whether inside or outside the session halls. Hotels strongly recommend that you use their safety deposit boxes for your valuables.

The IPVC 2023 Conference Secretariat and Organizers cannot accept liability for personal accidents or loss of or damage to private property of participants. Participants are advised to take out their own personal travel and health insurance for their trip.

### **Information for Online Attendees:**

The Online Conference platform will be accessible from 08:00 AM Washington D.C. Local Time (EDT/GMT-4) on April 15, 2023 via this [LINK](#).
