

What to expect at the Virtual IPVC

The IPVC 2021 Virtual Conference will be an entirely new online experience!

Many of you joined the first virtual IPVC Conference in July 2020. We will once again adapt to the online world in order to offer the possibility for **educational exchanges, scientific news and best practice** updates, but this new virtual conference will be even **bigger and better!**

One thing has been reduced – the registration fees! This year's conference will be more accessible and affordable than ever before.

If you have never attended an IPVC Conference, this is the perfect opportunity to see what our event is all about.

Here are just a few of the reasons why you shouldn't miss IPVC 2021:

MORE LIVE ELEMENTS

IPVC 2021 will gather international HPV experts, presenting the latest advances in the field. You will have the opportunity to see most presentations live, ask questions and participate in discussions with them.

MORE NETWORKING OPPORTUNITIES

IPVC 2021 will offer many new networking opportunities. You will be able to attend various interactive sessions or connect with international colleagues with similar interests outside of the scientific program. Join chat rooms or take part in lively discussions, or start 1-on-1 conversations – it is all

up to you.

YOU SET THE PACE

The Virtual Conference will allow you to choose which sessions you want to watch live or visit at what time. All talks will be recorded, so it's all up to you. You can even attend the entire conference if you wish – **100% of the talks instead of 20%.**

CLAIM CME CREDITS

You will still be able to claim CME credits and receive your Certificate of Attendance.
